

Responsible Packaging Solutions

Baltimore 2007

green
MISSION

Caring About our Environment

- We strongly support organic & sustainable agriculture
- Sustainable seafood—Marine Stewardship Council
- Commitment to recycling and alternative energy. 100% Wind Energy Credits.
- Green Building
- Store Green Mission Teams

Recent Successes

- Expansion of Green Mission Team to Global Status (4 sub committees)
- New Internal Packaging Initiatives
 - Front End Bags
 - Prepared Foods
 - Back of House Products

Your container is made from Annually Renewable Resources.

DEGRADES IN COMPOST IN APPROXIMATELY 90 DAYS!

We are proud to introduce compostable all natural
biodegradable food containers and plates
including food containers and bowls that are 100% compostable
and made from renewable resources. All items are
100% biodegradable and compostable.

These containers meet all food safety specifications and
standards for commercial use. They are 100% compostable
in commercial food waste and can be used in a restaurant.
